

Large Models

Recommended for Chapter(s):

Demo #049

Procedure

1. (Prep) Build the structure that you are interested in showing the class.

Clean Up

1. Return the materials to the cart in the demonstration library room.

Stockroom Notes

1. Makes sure that all structures have been taken apart and pieces are back in their appropriate labeled bags.
2. Return items to demonstration tub.
3. Return tub to the demonstration library.

Discussion

This large model set can be used to build chemical structures so that students can readily picture molecules that are being discussed.

Materials for demo 049

1. Large model set
